

FROM
YOUR DAUGHTER

*Happy
Father's
Day*

Dad,
if I could change
just one thing for you
on Father's Day,
it would be that you could have
more hours that are just for you—
more time to relax,
remember, and dream
about all the places you want to see
and the things you'd like to do,
because I know how busy you are,
and I see how often
you put others' needs
before your own...

Thanks 4 always
caring, And I
thank you 4 all
the things

Happy Father's Day

to you, Dad,

the one who does so much

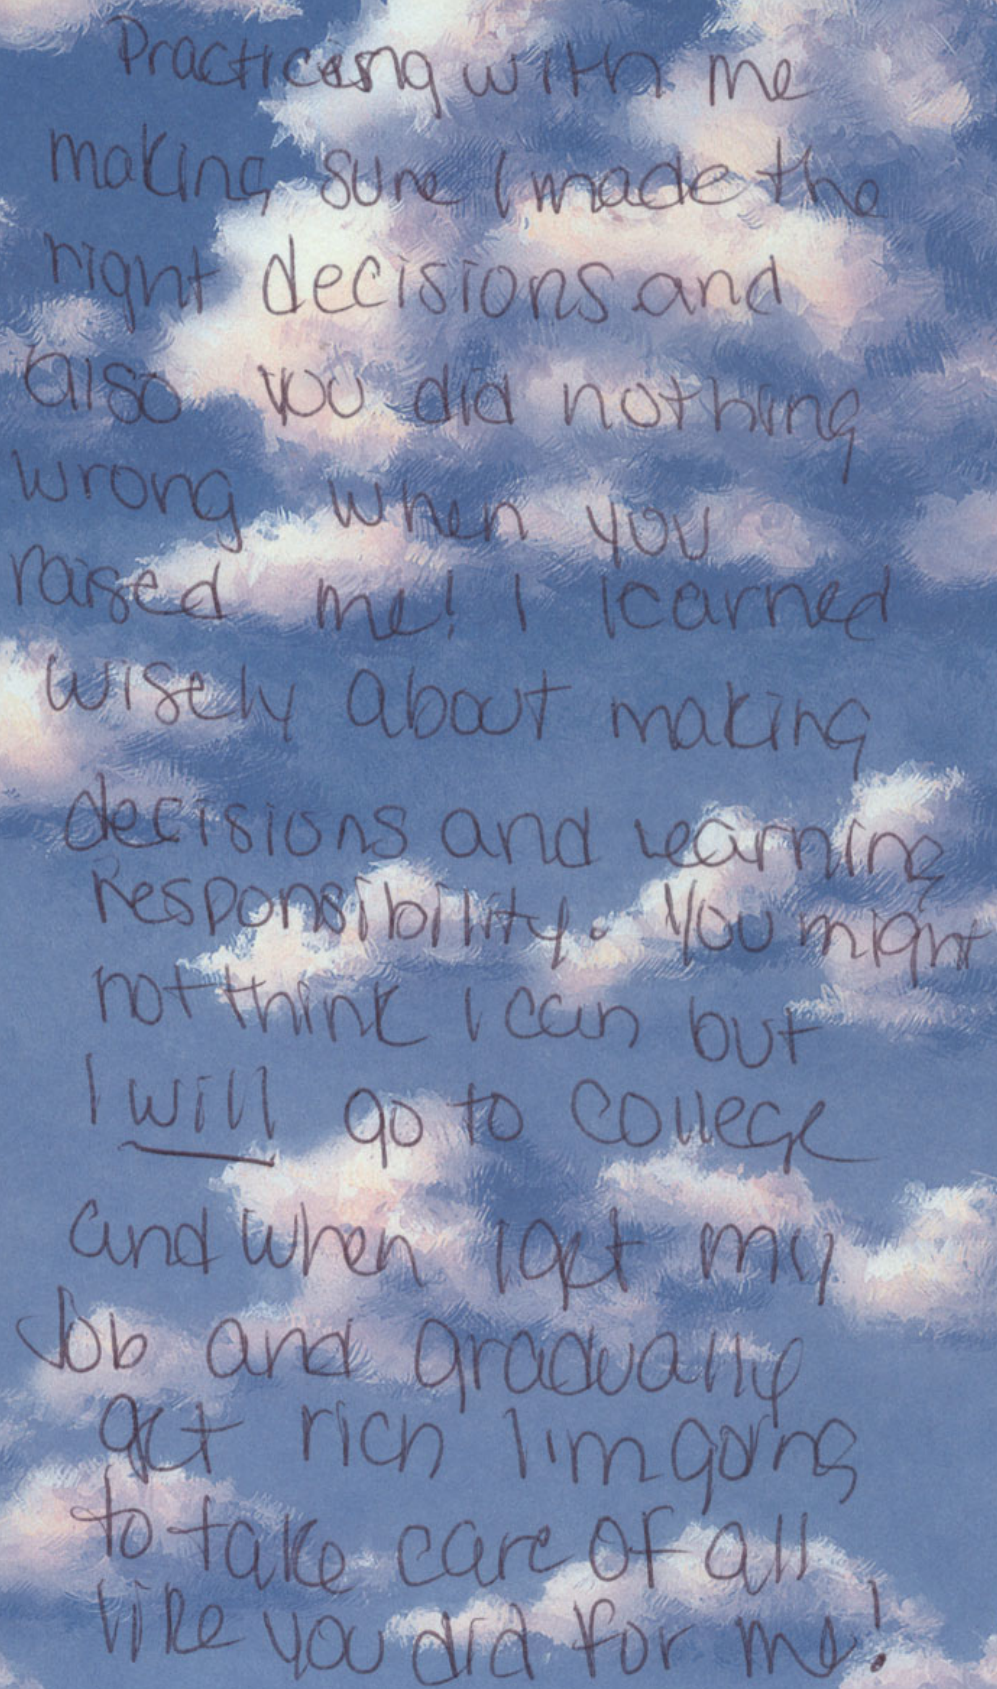

you did
for me
in my
life!

to make my world

a better place.

I know you have been through a lot with me this year. In fact you and mom. I realized no matter what I do, you still always love me. I'm sorry I put you through a lot and I appreciate everything you have done for me throughout my life. I realize from what I have done not a lot of parents forgive and I thank you for that. You're a loving and caring

father. But at this time you need to stop worrying dad! I know you love me and I love you! Always your daughter

The background of the image is a textured, painterly style of a blue sky with white and light blue clouds. The text is written in a dark brown or black ink, appearing as if it were a child's drawing or a handwritten note. The text is arranged in a roughly rectangular shape, following the contours of the clouds.

Practicing with me
making sure I made the
right decisions and
also you did nothing
wrong when you
raised me! I learned
wisely about making
decisions and learning
responsibility. You might
not think I can but
I will go to college
and when I get my
job and gradually
get rich I'm going
to take care of all
like you did for me!
